Mass mental illness is running amok across the world, and German scientist Dr. Michael Nehls offers some [interesting insights](#) as to why.

Author of "The Indoctrinated Brain," Dr. Nehls appeared with Mike Adams, the Health Ranger, on an episode of the "Health Ranger Report" to discuss the matter further.

In the following video, Dr. Nehls unpacks what he has learned over the past several decades in his studies on the human brain and how the globalist "elite" are exploiting it.

"I was seeing the attack on the human brain indirectly by the health policy of the last decades," Dr. Nehls explained.

"But what we have observed in 2020 and even worse with the mRNA injection program in 2021 when it started, it became totally clear that this is a real major attack on the human mental immune system."

Be sure to watch the full video below to see the entire interview:

An advertisement for Organic Lemon Essential Oil. It features a bottle of the oil next to a lemon. The text "ORGANIC LEMON ESSENTIAL OIL" is prominently displayed at the top in green. Below it, the "Health Ranger Store" logo is visible. To the left of the bottle are two circular logos: "USDA ORGANIC" and "GLYPHOSATE TESTED". To the right of the bottle, there are three bullet points describing the oil's benefits: "All-natural food grade oil that is extracted from the peel of the Citrus limon fruit", "Ideal for use as a non-toxic cleaner or air freshener", and "Lab tested for glyphosate, heavy metals and microbiology". At the bottom right, there is an orange button that says "SHOP NOW >".

(Related: One major way the globalists have taken control of people's minds and bodies in recent years involves COVID "vaccines," which are causing recipients to [develop major personality changes](#) – are COVID jabs genetically modifying human DNA, turning people into walking, talking GMOs?)

Humans no longer able to think due to attack on human mental immune system

While the attack on the human brain has been an ongoing operation for many years, it really ramped up with the onset of the Wuhan coronavirus (COVID-19) "pandemic."

For the first time in recent history, people everywhere bought the lie that a scary "virus" was circulating that required them to stay at home in fear, cut off their friends and family members, and take chemical injection after chemical injection to stay "safe."

COVID and the Operation Warp Speed "vaccine" campaign that accompanied it successfully disengaged most people's brains, causing them to let down their guard and *just believe* whatever the "authorities" told them.

In order to survive as a species, humans must engage their mental immune system in a healthy and constructive way, which is many ways is no longer possible since humanity is under attack by an increasingly evil global governance system that disrespects human autonomy and strips people of the fruits of their labor.

It has become a situation where it no longer makes sense to even try, at least not to the degree that natural instinct would dictate, because doing so becomes an exercise in futility.

At the start of our lives, the human brain is filled with wonder and possibility about the future. The brain's immune system coordinates with the rest of the body's immune system to facilitate cooperation between the gut and brain.

That cooperative arrangement is under attack by all sorts of things, including not just COVID jabs and other childhood "vaccines" but also 5G and other related wireless technology, genetically modified organisms (GMOs) in the food supply, brain-damaging media programming, and rampant corruption both in the public and private sectors that keeps humanity enslaved in a matrix of braindead existence from which there is no apparent escape.

Add to the mix the advent of artificial intelligence (AI) and the replacement of the human brain with computers and robots and the situation becomes even more dire. Are humans still relevant, so to speak, or have the globalists rendered all their peasants redundant and obsolete?

Dr. Nehls believes that there are solutions that have the ability to "unblock" neurogenesis in the brain, allowing people to once again utilize their full brain power. Have a watch above to learn more about his ideas.
